FR600 - SUN PROTECT YOUR WINDOWS AND VERANDAHS

Especially designed to protect your home from low level westerly sun, the FR600 drop arm awning offers a complete sun block out for balconies, veranda's or windows, at an affordable price.

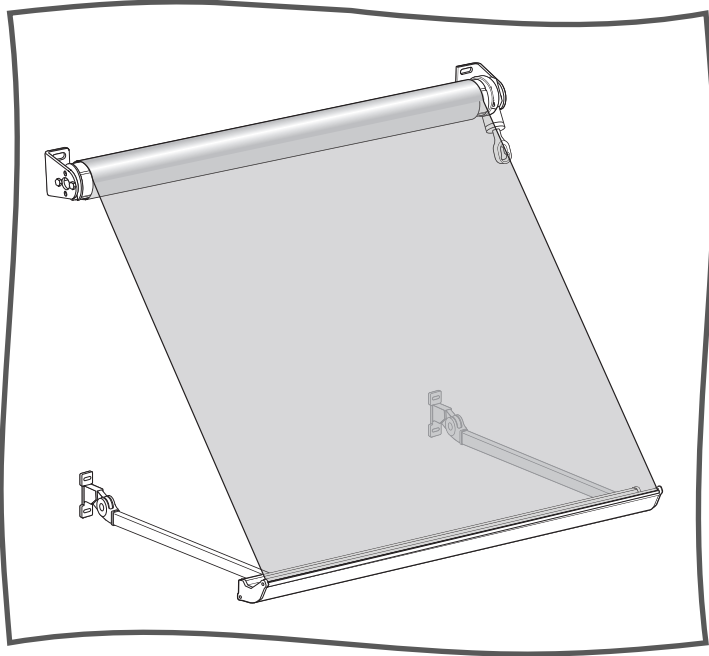

The FR600's simple design, consisting of aluminium extruded arms, hinges, a front strip, brackets and optional protective hood, mean quality components are used with trouble free operation.

Available in a wide range of powder coatings, fabric colours and a range of options, the FR600 is a quality awning designed to last.

OPTIONS: sun/wind,/rain/motion sensors, motorisation via remote control, protective hood, valance
